

Corporate & Commercial Breakfast Seminar

10 tips for better contracting

Effective contracting is one of the keys to running a successful business. Understanding frequently used contractual clauses and relevant areas of risk is vital in order to reduce negotiation time and avoid taking on unusual or onerous obligations with which it is hard to comply. In this seminar, we will:

- examine some key areas of contractual risk and commonly misunderstood clauses such as indemnities, warranties, assignment and termination clauses;
- consider the impact that certain legislation can have on your contracts, particularly the Trade Practices Act and the new unfair contracts regime;
- look at strategies to streamline negotiations;
- discuss some of the ways to manage key areas of contractual risk having regard to relevant legislative constraints with respect to limiting your exposure.
