Cutting the costs of disputes in business

Disputes that affect your business can cost you dearly, both financially and in other respects such as damage to reputation and relationships. While disputes are a fact of life and business, there are steps that your business can take to avoid disputes and to resolve them quickly and efficiently when they do arise.

This seminar will give attendees simple and practical methods that can be adopted to reduce the cost of disputes on your business.

This seminar will cover topics such as:

- Drafting contracts to avoid disputes;
- Understanding and remaining informed about the legal framework in which your business operates;
- Managing documentation, both hardcopy and electronic;
- Resolving litigation through proactive management techniques; and
- How to get the most out of your lawyers and when to use them.
